BY TELEGRAPH TO THE TRIBUNE WASHINGTON, June 2, 1867. The Judiciary Committee will in all likelihood adjourn to-morrow night, but to what time is yet undecided. The terms of the resolution under the authority of which they have been carrying on their investigation requests them to report to the July session of Congress. It is therefore probable the Committee will decide to adjourn until the second or third of July, and if there is no chance of there being a quorum of Senators and Representatives present they will adjourn until the second of November. Some of the members of the Committee are in favor of adjourning over until the latter time in any event, but no vote has yet been taken in the Committee on the subject. Mr. Woodbridge of Vermont, a member of the Com mittee, will return home to-morrow evening.

Judge Kelley gives a favorable report of the con dition of the South. He finds that the principal opposition to the Reconstruction bill arises from men who were sneaks from the Confederate service during the war; silly women, and a number of blatant newspaper editors. The Rebel soldiers, and especially their officers, are the most forward in their professions to faithfully carry out the new order of things. Judge Kelley found North Carolina and Virginia the most thriving of the States he passed through, and in the former State the gold mines worked by Northern people are more productive than they ever were. He considers Virginia and North Carolina, in an agricultural and mineral point of view, and in their water-power capacities, the most wonderful section of country he ever saw either at home or abroad. The citizens of Richmond wanted Judge Kelley to stay and address them, but he could not. He, however, promised to return and speak to them in a few weeks.

The special Levee Commissioner of Louisiana, on behalf of the Governor of that State, and the Board of Levee Commissioners recently appointed by Gov. Wells, has presented a petition to the President for the revocation of Gen. Sheridan's order deposing Gov. Wells's appointees and appointing new boards of Levee Commissioners. The petition sets forth:

Gov. Wells's appointees and appointing new boards of Levee Commissioners. The petition sets forth:

That in pursuance of the laws of Louisiana the Governor of that State appointed a Board of Commissioners to manage the construction and repairs of her levees. That the Governor and his Commissioners are provented from the prosecution of their work by the intervention of the order issued by Gen. Sheridan on the 3d day of May, 1807, which order abolished the Board of Commissioners appointed by Gov. Wells. Appoints another Board and directs the latter to receive from Gov. Wells's appointees the property, &c., that at the time of, and immediately preceding the issuing of Sheridan's order, the Governor of Louisiana and his levee Commissioners were faithfully performing their special duties according to the intent and meaning of the laws of said State, and were in no wise obstruoring the operations of the laws of Congress, nor had they refused or neglected to perform any of the functions of their office, nor were they hindering or obstructing any of the officers of said State or of the United States from the execution of the laws, State or Pederal; that said order of Gen. Sheridan's is wholly unautherized by law and is an unwarrantable assumption of power; that at the time Gen. Sheridan's order was issued, the agent of Louisiana was successfully negotiating loans upon bonds provided for that purpose by the law of this State; that, in consequence of the action of Gen. Sheridan's order was issued, the agent of Louisiana was successfully admitting as to the femine and legality of the new Board, &c., these negotiations coased; that the damage to property and the suffering of the people from the delay is almost incalculable; that the regular Civil Courts in and for the State of Louisiana were open at the date of Gen. Sheridan's order, and were open at the date of Gen. Sheridan's coarer, and were open at the date of Gen. Sheridan's coarer, and were open at the date of Gen. Sheridan's coarer, and were open at the date of Gen.

F. U. Stitt, esq., Pardon-Clerk, Attorney-General's office, is subpensed to appear to-morrow before the Judiciary Committee to take with him the papers in the matter of the pardon of George W. Gayle of \$1,-000,000 reward notoriety. The impression prevails that Gayle was pardoned on account of the charge of conspiracy to take the life of Mr. Lincoln. Such is not the case; this pardon was on the charge of participating in rebellion and the fact also seems to have been overlooked that Gayles's reward was offered for the assassination of not only Mr. Lincoln but | also Mr. Johnson and Mr. The whole case is contained in the petition of the members of the Supreme Court and bar of Alabama, which is one of many papers upon which the President based his action when the pardon was issned. These Judges and lawyers say :

President based his action when the partion was issued. These Judges and lawyers say:

"He, Gayle, is indicted with others for a consparacy to overthrow the Government of the United States, and an anonymous communication published in The Scima Dispatch, a newspaper during the war, offering a reward to anyone who would take the lives of Lineoin, Seward, and Johnson, is the special matter against him. Most of us have known Mr. Gayle many years, and are well acquainted with his character. He is a man of remark-ble kindness of heart, foll of generous impulses, and governed if fall things much more by impulse than by any settled conviction, and with a want of prudence that verges on insanity. We are satisfied that the publication in The Scima Dispatch was the result of a sudden idea which entered his mind to put to test the statements of his more waithy neighbors, to the effect that they would devote their last dollar to any means which would secure the independence of the Confederacy. From our knowledge of his character we are satisfied he had no other intention. For many years he has been insolvent, with no means except a precarious professional income, which bacely sufficed for his family, and we are convinced that he could not possibly have raised \$100 of the million which was to be raised for the purpose indicated. He is quite old, 60 years; has a large family dependent upon him; and of all the people of Alabama who participated in the late war there is not, in our opinion, one who is more humless and ineffensive toward yourself and the Government of the United States. He has suffered much from imprisonment, is quite feeble, and is a proper object for Executive elemency.

Beside these petitions for Gayle's pardon, there

Beside these petitions for Gayle's pardon, there were petitions from the Governor and from members of the Legislature of Alabama, from seven Federal officers, from a lodge of Masons, and from a neighbor of Gayle, who says: "He (Gayle), was intoxicated when he prepared the advertisement, and deeply regretted what he had done when he came to his senses."

The election here comes off to-morrow and the Republicans feel confident they will carry the city. In the First Ward there are 1,028 whites, and 1,451 colored registered; in the Second, 856 whites, 1,419 colored; Third, 723 whites, 708 colored; Fourth, 1,404 whites, 913 colored; Fifth, 964 whites, 717 colored; Sixth, 1,201 whites, 347 colored; and Seventh, 1,668 whites, 1,655 colored. On Thursday and Friday last, upon order of the Supreme Court of the District the registry booths were re-opened and 1,748 white, and 1,002 colored were recorded. The whole number of whites registered is 9,792, and colored 8,212. As there are about 3,000 white Republican votes sure to be cast, it will be seen the Republicans will carry the city by a good majority, as it is very sure they will get almost every colored man's vote. The Democrats will try all they can tomorrow to retard the voting of the colored men by challenging them, but if the police carry out their orders issued by Chief Richards this game will be

The Ordnance Committee have not commenced their investigation yet. A quorum of members has as yet failed to come to town. The members of the Committee are waiting to see what action the Judiciary Committee will take on the question of adjournment. If the latter adjourn until November it is tolerably sure we will have no July session, and in that event there is no need of the Committee

ommencing its investigation until the Fall months. The President has appointed the following Board of Visitors to the United States Military Academy at West Point for the year 1867: George W. Burleigh, New-Hampshire; the Hon. N. A. Thompson, Massachusetts; the Rev. D. F. Vinton, New-York; the Rev. H. icer. Maryland; Prof. W. C. Kerr. North Carolina; the Hon. Jas. B. There is trustworthy authority for stating that the delays in the appearance of the general orders and forms in Bankruptcy are entirely owing to the many corrections found necessary since the adjournment of the Court, in order to make them as perfect as pos-

sible; and that as no authority was given to the Clerk by the Court to make such corrections, the minds of the Justices who had gone to their respective circuits had to be consulted. At the time several other very important changes in the rules have been suggested by various Judges, and others may yet have to be made before the work is completed or any part of it issued to the different districts. No one has any authority to create the impression that the same can be furnished until they

The Second Auditor receives hundreds of letters daily inquiring into the condition of claims for back pay and bounty, and urging their speedy settlement. When applications have been examined and found correct in form, they are put on file for settlement, and are taken up in their regular order and without unnecessary delay; and as the answering of such letters would in no manner benefit claimants, but occupy much time which would otherwise be devoted to the settlement of claims, parties will hereafter be notified in each case, in the letter announcing the corrections of application, that all correspondence relating to the claims must be considered as

terminated until final adjustment. Notwithstanding the statements to the contrary, Surratt will on Monday week be tried under the indictment already found against him.

Upon this showing the President yesterday referred he petition to the Secretary of War for early consideration and action, with the direction that all further proceedings by the Sheridan board be suspended until further information.

CONFISCATION.

ANOTHER LETTER FROM THADDEUS STEVENS. LANCASTER, Thursday, May 23, 1867.
To the Chairman of the County Committee and the Assessors of the Townships of the Counties of Adams. Franklin, Fulton, Bedford, Somerset, Perry, Camberland and York.

To the Chairmon of the Counties of Adama, Frankin, May 23, 1907.

To the Chairmon of the Counties of Adama, Frankin, Fulton, Bedjord, Somerst, Perry, Camberland and York.

GENTLEMEN: As I am about to prosecute the claims for confiscation at the next session of Congress, if I should be permitted to appear there, I desire to ascertain certain facts. Will you aid me in procuring them in a small part of our own State I Invite returns from all the people in each township of the amount of property which the Rebel raiders, or the armies of the so-called "Confederate States," destroyed or appropriated to their own use during their several incursions into Pennsylvania, and hand the same to the Assessors of the different townships, who are requested to return the aggregate for each township to the Chairmen of the respective parties of the different countles. May I here ask that the various newspapers of the counties above mamed publish this notice for a few weeks in aid of the object specified, as I Intend to press the payment of the damages done to loyal men out of the confessated property of the conquered belligerent: I desire each and every person who resided in the above-named counties to make out a list of the amount of all property of which he was despoiled by the Rebel raiders or the Robel Government, and return the same to the assessors of his township, who, I hope, will forward the same to the Chairmen of the County Ormaittees of each party, who, I hope, will take the trouble to aggregate the same and return it to me. I desire a fair valuation to be placed on all the property destroyed, except Caledonia Iron Works in the County of Frankin, which will not be appraised, as no remaineration is claimed for it. This may seem to be asking our friends to take considerable trouble, but as a small part of the labor only falls to each person, it will be found light. I hope it may finally prove profitable to the injured people. Yours,

P. S.—Were it not presumptuous in me, I would invite all the states and on the recombine

IMPORTANT CIRCULAR FROM GEN. BROWN - ALL FREEDMEN TO REGISTER.

The following circular has been issued by Gen. Brown to the subaltern officers of the Freedmen's Bureau: BUREAU OF REFUGEES, PREEDMEN, AND ABANDONED?

Brewn to the subaltern officers of the Precedent's Surrau, Bureau of Refugees, Freeden, and Adamponed Lands, House Asst. Commissionell,

State of Virginia, Richmond, Va. May 28, 1857.)
Cincular Letter.—It is reported that many of the freedmen of the State will fall to register under the military bill, through the agency of persons hostile to their exercising the rights of suffrage. The act to continue in force, and to amend "an act to establish a bureau for the relief of freedmen and refugees," requires the officers of the Bureau to aid the freedmen "in making the freedom conferred upon them available to themselves and beneficial to the Republic." It is, therefore, clearly your duty to counteract, as far as possible, the influence of persons inimical to the freedmen registering or voting, and to advise and instruct them in regard to their rights under the above-named bill, and the great importance of their exercising these rights. By availing yourselves of their various meetings of the freedmen, and other means at your command of spreading information among them, not one in the State need be uninformed in regard to his right and duty in the matter. If any freedman fail to register, through ingorance, the Bureau officer in charge of the sub-district or division where such failure occurs will be considered ferelict in the performance of his duty. The optimion expressed in this letter in regard to the duties of Bureau officers is in accordance with that held by Major-Gen. Schofield, commanding this district.

PROCEEDINGS OF THE STATE CONVENTION. In the Convention at Annapolis on the 30th the Committee on the Elective Franchise submitted a report, which was ordered to be printed. Its provisions are similar to those of the present Constitution, excepting, of course, that the oath distranchising and disqualifying from holding office those who bore arms in support of the Rebellion and against the General Government, and who invaded, plundered, and hid waste portions of Maryland, or who otherwise gave aid and comfort to the "Confederacy" is omitted. The oath enacted by the last Legislature in the Enfranchisement law is substituted in its stead, under which every traitor who left this State is eligible to any position in its Government, while the black man, who fought in its defense, is deprived of the privilege of voting. The present registration law, as amended by the last Legislature, is continued in force until another be adopted by the Legislature to assemble under the proposed Constitution. The testimony question was again debated. A proposition of removing the disability heretofore imposed on negroes to testify in Courts of justice ought to be settled by this Convention, and that the Constitution now being framed ought to contain a provision removing such disability, was adopted by a vote of fifty-eight yeas to thirty-six nays. A long discussion ensued as to what was the proper place in the Constitution to declare this principle, during which members accused one another of misrepresenting their constituents, and without deciding the question an adjournment was taken to Monday. which was ordered to be printed. Its provisions are

THE REBEL SPIRIT STILL RAMPANT.

The constituents of the Convention at Annapolis, like their representatives, seem to be of the opinion that the old days and rule of Slavery are still in existence. the old days and rule of Slavery are still in existence. In Greensborough, Caroline County, a few days since, a colored man was strung up by the thumbs by a party of whites for the purpose of making him confess where a colored boy of his acquaintance, who had had a difficulty with a white man, was concealed. At the State Capital, and near the bailding in which the Democratic Convention holds its sessions, yesterday the Stauton schoolhouse for colored children was fired by an incendiary. It is time the perpetrators of these outrages were made to realize and accept, the changed condition of affairs.

EXCITING DISCUSSION BETWEEN EMERSON ETHER-IDGE AND COL. STOKES.

BY TELEGRAPH TO THE TRUBUNE.

KNOXVIILE, Tenn., June 1 .- An exciting political discussion, six hours long, took place to-day between Emerson Etheridge, Conservative candidate for Governor, and Col. W. B. Stokes, Union member of Congress. The erson Etheridge, Conservative candidate for Governor, and Col. W. B. Stokes, Union member of Congress. The crowd in attendance was very large, about one-third being black. Etheridge opened in a two hours' speech, charging that the power of the State was centered in the hands of Brownlow; that he had annulied the registration in mne counties, and could, when he chose, annul it in all the counties and disfranchise all opposed to him. He favored the enfranchising of the late Rebels, and that they should be put on the same equality with Rebels of Scath Carolina. He challenged them to prove him an anti-Union man. The war was ended, and he wanted the bitterness to end. Col. Stokes replied, and charged Etheridge with attempting, while Clerk in Congress, to exclude five States from representation. Etheridge replied that he was upheld in that action by many Republicans. Etheridge's attack on the State Government was answered fully. The blacks seemed to be with Stokes to a unit. The majority of the whites seemed to be with Etheridge. Both parties claim the victory. Trouble was apprehended, and slight disturbances occurred. The Black League received Col. Stokes last night, and showed some excitement, groaning for some of the citizens. Senator Fowler and other Republicans are here to prosecute the campaign in East Tennessee. Etheridge has appointments next week at Greenville, Jonesborough, Bristol, and other points. Col. John Baxter speaks with him at Bristol and Morristown. The Knoxville company of State militia was mustered in to-day. Four other companies will be mustered in teat weeks. The political excitement is very high, and both parties are confident of success.

ST TELEGRAPH TO THE TRIBUNE. PHILADELPHIA, June 2, 1807. The sixth game of the match was commenced yes terday. Mr. Reichbelm again preferred the Evans's Gambit, but destroyed his chances on the PCG move by an injudicious retreat of his bishop. The game was carried into the afternoon, and resulted in another victory for Mr. Mackenzie. The seventh game, at one time, was in favor of Mr. Richelm but by ingenious play his opponent secured a draw. The eighth game was won by Mr. Mackenzie yesterday, and the match will be resumed to-morrow. The score stands McKenzie 6, Reichhelm 6, Drawn 2, the New-York player needing but one game to win the match.
